Rupert,

It is purely for crew coordination on our part. With one crew going down early morning I would like them to know ahead of time which two sites to prepare for. I think it would be easier if a Moody crew and a Techlaw crew were just paired up for the day. If you have any issues with this just let me know and we will work around it on our end.

Have a good weekend.

Denis,  
Our intention is to be ready to sample simultaneously from the tap and well head area on Monday, I cannot guarantee this will happen but, as I said we intend to try.  
I wonder why you are concerned about which crew we plan to assign to the sample locations?

**Subject:** Next Week

Rupert,

I just had some quick questions about next week.

- When (if at all) will Techlaw be staffed to collect samples simultaneously from the wellhead and faucet
  - On Monday, I was wondering which afternoon site the crew who samples [redacted] would be going too.
- o 0830 [redacted]
  - o 1330 [redacted] Ex. 5 - Personal Privacy
  - o 1330 [redacted]

Let me know when you can so I can coordinate the Moody staff. Thanks and have a good weekend.
